Investment Strategy

The strategy utilizes a sector and region neutral risk-controlled framework that seeks to provide long-term capital appreciation and excess returns relative to the MSCI ACWI Index. The portfolio invests in companies that, we believe, exhibit attractive risk/return profiles and favorable ESG characteristics.

Intentionality Incorporated in the Portfolio

Diversity / Inclusion

- Gender and inclusion policies
- Women in leadership

Sustainability

- Disclosure
- Governance
- Risk

Environmental Care

- GHG emissions
- Environmental Care
- Future temperature rise impact

Disclosures:

Promethos is a fee-based, U.S. Securities and Exchange Commission (“SEC”) registered advisory firm serving the portfolio management needs of institutional and high-net worth clients. Registration with the SEC or any state securities authority does not imply a certain level of skill or training. Data quoted is past performance and current performance may be lower or higher. Past performance is no guarantee of future results. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. The currency used to express performance is USD. Returns are presented gross and net of management fees and include the reinvestment of all income. Gross-of-fee returns are reduced by trading costs. Net of fee performance was calculated using an annualized model management fee of 0.60%, applied monthly. The model management fee is based upon the highest management fee expected to be charged for an account within the strategy for the intended audience of accounts greater than \$10mm in assets under management. Actual investment advisory fees incurred by clients may vary.

The MSCI ACWI captures large and mid cap representation across 23 Developed Markets (DM) and 25 Emerging Markets (EM) countries*. With 2,966 constituents, the index covers approximately 85% of the global investable equity opportunity set. Index performance is discussed for illustrative purposes only as a benchmark for each strategy’s performance and does not predict or depict performance of that strategy. While index comparisons may be useful to provide a benchmark for a strategy’s performance, it must be noted that investments are not limited to the investments comprising the indices. Each of the strategy benchmark indices are unmanaged and cannot be purchased directly by investors.

Principles for Responsible Investment (“PRI”) is an industry leading proponent of responsible investment. It works to understand the investment implications of environmental, social and governance (ESG) factors and to support its international network of investor signatories in incorporating these factors into their investment and ownership decisions. The PRI acts in the long-term interests of its signatories, of the financial markets and economies in which they operate, and of the environment and society as a whole.

Impact Results table – Definitions

Board Diversity: Percentage of Board Members that are Women. Executive diversity: Percentage of Executive Team Members that are Women. C-suite Diversity: Percentage of C-Suite level (CEO, CFO and COO) Members that are Women. ESG Disclosure: Proprietary Bloomberg score based on the extent of a company’s Environmental, Social, and Governance (ESG) disclosure. ISS Governance: ISS’ Governance QualityScore assigns a numeric, decile-based score indicating corporate governance risk relative to other companies in the applicable index or region. Scores 1 to 10 – 1 is better. Sustainalytics Risk: Offers clear insights into company-level ESG risk by measuring the size of an organization’s unmanaged ESG risk. Lower is better. CDP: Reflects the level of company commitment to climate change mitigation, adaptation, and transparency. Scores 1-8 – 8 is better. S&P Global Env Rank Total Sustainability rank, converted from the total sustainability score, based on the RobecoSam Corporate Sustainability Assessment. Scope 1 GHG/Revenues: Ratio of total emissions which are directly related to the activities of the company, to sales revenue. Scope 2 GHG/Revenues: Ratio of total emissions which result from the generation of electricity purchased by the company, to sales revenue. SBTi 2030 Temperature Rise: From Bloomberg and Science Based Targets initiative (SBTi), temperature scores that translate corporate greenhouse gas emission reduction forecasts into implied temperature changes expressed in degrees Celsius. Temperature Rise Disclosure: % of companies providing data to compute SBTi 2030 Temperature Rise.
